

Suspension for Formula, Sports and Street Cars.

The ultimate in suspension technology is now available to a wider range of customers. The New Öhlins ST44 damper is suited for both street and race cars and is based on the championship winning performance of the Öhlins TT44 formula and sports car shock absorber.

Features

- ¥ Single tube shock absorber with adjustable compression and rebound damping.
- ¥ Cylinder head design adapts to either Piggy back or hose mounted reservoir.
- ¥ Four lengths to choose from with a choice of four different length end eyes.
- ¥ Can be used with 2" or 2.25" springs.
- ¥ Lightweight aluminum body.
- ¥ Easy to dial-in, reshim, rebuild and service.
- ¥ Professional technical support.
